

## Examples of how to organize your content into pages/sections.

Tips and generic guidelines on how you may structure your content for: (1) A typical personal website. (2) An online diary or blog. (3) A corporate website. (4) An e-commerce website.

The names of EACH page/section highlighted imply that there will be a NAVIGATION TAB for that item in the interface that you click on enabling the user to go to that link.

### **(1) A typical personal website**

This will tend to have pages like **Home** (or a **welcome** page) | **About** (Info on the person, site, etc..) | **Profile** | **Photos** (essentially a section of pages that show collections or galleries of photos) **Itinerary** | **Contact**.

Example of Navigation tab:

**HOME** | **ABOUT** | **PROFILE** | **PHOTOS** | **ITINERARY** | **CONTACT**

---

### **(2) Online diary or blog.**

This will tend to have pages like **Home** (or a **welcome** page) | **About** (Info on the person, site, etc..) | **My Thoughts/Musings** | **Archive** | **Contact**.

Example of Navigation tab:

**HOME** | **ABOUT** | **MY THOUGHTS** | **ARCHIVE** | **CONTACT**

---

### **(3) Corporate website.**

Example of Navigation tab:

**HOME** | **ABOUT US** | **CORPORATE VISION** | **OUR CORE BUSINESS** | **OUR VISION** | **OUR CORE VALUES** | **OUR MANAGEMENT TEAM** | **AREAS OF SPECIALIZATION** | **DEPARTMENTS** | **CAREERS/JOBS** | **OUR OFFICES** | **NEWS** | **CONTACT US**

For a Church/NGO, this may be like:

**HOME** | **ABOUT US** | **VISION** | **OUR BELIEFS** | **LEADERSHIP** | **THE MINISTRY** | **ONLINE DONATION** | **PHOTO GALLERY** | **DEPARTMENTS** | **PLACE OF WORSHIP** | **SERVICES** | **DAILY DEVOTIONAL** | **CONTACT US**

---

#### **(4) An e-commerce website**

Example of Navigation tab:

HOME | ABOUT US | PRODUCT CATALOGUE | SHOPPING CART | TERMS & CONDITIONS |  
REFUNDS POLICY | DELIVERY INFORMATION | CONTACT US

*Please note the above are only meant to serve as guides, more tabs may be required and the actual tabs can or may need to read differently to suit each project or client's needs.*
